How About the Widow?

Mr. Married Man, did you ever give much thought to what would happen when you died?

Did you ever spend much thought upon the fact that you were going to die?

Did you ever realize that your children would no longer be children, but would be known as your orphans?

If you did grasp these facts, which many men try to dodge, and carry your speculation a little further, thus wise:

"Will my widow wear as good clothes as my wife?"

"Where will bread come from when the bread winner passes on?"

"Will my orphans have the advantage of my children?"

It is rather a grim subject—this idea of death. Not discuss conversation at all. It's a pleasant thing to forget. Many men successfully dodge the subject all their lives. But there is an end to death itself. It never forgets. It never skips. Rich or poor—high or lowly—no matter.

It's a fine thing to live. It makes a married man proud to have home, to dress his wife, to give his children educational advantages, to keep his family in the front rank. It takes money, yes—but for the children, delightful for the wife, satisfying to the man.

When you've run your length, Mr. Married Man, what then? Some day your friends will lay a lily on your chest, heap the reverence, the kindly tribute that should have been yours in life upon what is left of you, lay you away and proceed to forget you.

But the widow won't forget you. The orphans won't forget.

When you go to the cemetery, will the widow go to the grave alone? When you pass into the unknown, will your children pass into the asylum?

There is no time to decide this but now. Save! Leave an account.

If you left your wife while alive the law would put you in jail. Death relieves you of the law, but not of the responsibility.
